PRINTING
Neatly executed at the Office of the Alexandria Gazette.

From the Connecticut Courant,

THE BRIEF REMARKER.

Learn your children to help themselves, is a practical maxim deserving of more general notice than it ever yet has obtained, or peradventure ever will obtain in this scornful and foolish world. The highest and most important part of the art of teaching is to learn the young mind to think for itself, and to exercise and exert its faculties of judgment and understanding as well as of memory; for these faculties grow and increase only by exercise. The less they are exercised in childhood, the more feeble they come to be in manhood. And besides, one who has been unaccustomed to the exertions of thought in the early years of his life, commonly lacks all disposition to accustom himself to it afterwards; it being a kind of labour which early habit makes pleasan, but which early neglect renders intolerably irksome.
And as children should be led to think for themselves, or to exert those faculties which pertain to the mind only; so also should they be inured to the exercise of those mixed faculties that call forth the exertion of the mind and body conjointly. This class of exercises is of more easy performance, especially in childhood than the other. It is altogether natural; and it tends to give vigour and alertness alike to the mental and the corporeal frame. If children be made to help themselves as soon and as much as they are able, it wonderfully conduces to the improvement of their faculties, and has at the same time an auspicious influence upon their dispositions. Whereas if they be accustomed to have every thing done for them by others that others can do, the rest of sloth and the canker of pride will be full apt to spoil whatever of excellence nature has bequeathed them.
Childhood and youth are periods of life which materially influence all its following periods. Whether these early years be passed in torpid indolence, or in well directed industry, is a point on which greatly depends the worth or the worthlessness of human characters. What man or what woman that has a relish for intellectual pleasure but can trace that relish down to the days of childhood? Where is the man who guides his affairs with discretion, or the woman that "looketh well to the ways of her household," and yet was not in some measure imbued with industrious and provident dispositions in early life. On the other hand, who that had been treated till the age of twenty like an helpless infant, and had every want supplied without being put to either mental or bodily exertion, was ever good for any thing afterward? I freely admit indeed that there are some honorable exceptions; but they are like the few exceptions to a well established general rule.
It is the misfortune of high rank and great wealth, that the children of families so distinguished are often treated as helpless till they became so in reality. They must have waiters to do for them a multitude of little things which it would be greatly for their benefit to do for themselves. They must be served with such assiduity as to supersede almost the use of their own limbs. They have feet, but they walk not; hands have they, but they use them not, except for putting their food and drink to their mouths. And are they happy? No: it is of the nature of this kind of training up to render them discontented, peevish and querulous, all their lives, even though fortune should never forsake them; and if they chance to fall into poverty, they are wretched indeed,—no less incapable than unwilling to earn a livelihood by industry.
But the sum of the mischief would be not near so great if it were confined altogether to families of high rank or great wealth: for these are comparatively very few. It is the fevery appetence of aping the stateliness of rank and the pomp of wealth, that occasions the commonness of this perverted education and the huge mass of wretchedness which follows it.
Madam——is a branch of what had been called a good family. The estate is run out, and she is poor and dependant.—She retains, however, some family pictures, and a few other precious relics of former splendour. With these she feeds her vanity. Not unfrequently she boasts of it, that never in all her life time did she defile her hands with labour; and she would swoon at the thought that one of her maiden daughters should descend to the business of a milliner, or that the other should marry a substantial tradesman.
Mrs.—— has no rich ancestry or great connections to boast of, and her worldly circumstances are but indifferent but the darling wish of her heart is the elevation of her children. Wherefore she toils and toils day and night, gives herself no rest, impairs her constitution by overworking, for the goodly purpose of bringing up her daughters in genteel idleness, that so perchance they may obtain the notice of the better sort of community.
B—— was in his better days, a snug farmer of industrious habits, and was pretty well contented with his lot, though from the beginning he had rather an upish turn, both he and his rib. In an hour he happened to be made a major captain.—That connected him with the colonel of the regiment, and at length after some wriggling for it, with the brigadier general, and of course with sundry other men of consequence; so that between his family and theirs there was a free interchange of visits. The keeping of these new expenses was too heavy for him, and he sunk under it. The mortification threw the good couple into an agony of grief and despair for their children; and upon being reminded that they were considerably grown and could at earn their living, the captain and his lady made answer, that it was not the fear of want either for themselves or theirs that stung their hearts, but the apprehension lest their children should lose their rank and be degraded to the level of common folks.

MELANCHOLY OCCURRENCE.

On Saturday morning, the 13th inst. we were called to witness the most distressing scene, and the most awful one we ever beheld or even heard of; the following are the particulars.
Mrs. Melvina Hopper, wife of William B. Hopper, of Ramapough, Franklin township, Bergen county, N. J. neither ate between the hours of 11 in the evening of Friday, and four in the morning of Saturday, stripped herself stark naked, and left the house unobserved by any of the family. At about 4 her absence was discovered. Search was immediately made but in vain. The neighbours were alarmed, and at day light the search was renewed, when at about 8 or 9 o'clock, the body was discovered at the corner of a woods near a fence, a short distance from the road leading from Ramapough to Pompton, and about a quarter of a mile from her former residence, sprawled out, and in the same naked condition in which she left the house.—Suffice it to say, she was dead. A jury of inquest was immediately summoned; but no other marks of violence were discoverable than that her hair was entirely torn from off her head and thrown on the opposite side of the fence on which she lay, supposed to be done in a fit of insanity. The jury reported her death was occasioned by the inclemency of the weather and the hand of God.
The deceased had, three weeks prior to her death, been taken ill, and was, during the first fortnight, mostly confined to her bed, though she was during the whole of the last week, fast recovering, insomuch that her mother, who had been with her some part of that week was urged by her to return home to her own family. For a considerable time previous to her sickness, she seemed to labor under convictions, and at times expressed a concern for the welfare of her soul. During her illness her mind seemed more than ever impressed with the importance of divine things and the necessity of an interest in the merits of the Redeemer, although none of the family had ever discovered the least symptoms of insanity or of mental derangement. During the whole of the evening of the night of her departure, she seemed calm and composed, and mended some clothes, made provision for the breakfast of the family in the morning, and gave directions to such of them as were about going to New York on the ensuing Monday, to bring flannel, as the Doctor had ordered her to wear that. Towards bed time she expressed a desire to her husband to become a member of the Church at that place, as the sacrament of the Lord's Supper was to be administered there on the ensuing Sabbath; but added, I am too weak to get there, and perhaps unworthy. But alas! she is no more! She has gone to her long home—to that bourne whence no traveller ever returns.

Land for Sale.

A tract or parcel of Land, containing between two and three hundred acres, on the north side of Occoquan, in Fairfax county, about 5 miles west of Occoquan mills. It is well watered with never failing springs, it is also well timbered, and the great quantity of fur timber on it renders it the more valuable to any person in the coopering line. This land is of the middle soil, and produces corn, wheat or any other grain tolerable well—there is about 100 acres cleared and under good fence. The improvements are a log dwelling house & other out houses and a good apple orchard of about sixty trees.
ALSO,
One other tract in the same county within three miles of Occoquan, lying on Sandy Run, containing 47 acres—one half in cultivation and under good fence, the remainder heavily timbered. There are on the premises an old framed dwelling house and out houses and an apple orchard of eighty bearing trees.
Any person inclining to purchase can view the premises and know the terms by applying to the subscriber who lives near them.

We understand that the minister of France has, since his arrival in this country, been favorably received by the President. Whatever difference of opinion may have been on a delicate subject, in which it is understood have been connected with our institutions, it is different for governments to form correct opinions which it is understood have taken place that just sentiments will be entertained respecting them, and that interruption will occur in the amicable relations existing between the United States and His Most Christian Majesty.

CANADA.

A proposition has lately been made in the British Parliament, to declare Canada an Independent? We think the adoption of such a measure not unlikely. The relief has long been entertained by many distinguished persons in Great Britain, that the possession of Canada was more injurious to the prosperity of the mother country. The subject is highly interesting to the U. States, and we hope will be steadily kept in view by our government.
We have read a great number of London papers, but never met with the above mentioned proposition.

Nature, by endowing him with such great qualities, appears to be the consoler of Europe. Providence, in its councils, by rendering him the only hope of England, will place him in the number, in the rank of those men, who, by terminating war on the continent, consolidate the misfortunes of our generation. BUFFALO, November 19.

HURRICANE

We have rarely ever witnessed a more tremendous storm of hail and wind, than happened here on Friday last. It commenced about 12 o'clock in the morning and continued with unabated fury till the evening. All the vessels lying here have suffered severely. Those near the shore were driven with great violence upon the beach, and those at anchor soon followed, having parted their cables. Among the latter we are sorry to state, was the United States schoone Porcupine, Lieutenant Champlain of the navy. She returned from the falls of St. Mary's, (lake Superior) on Thursday afternoon, with Colonel Hawkins and Major Roberdeau on board. On arriving here it was nearly calm, which afforded her an opportunity to choose the best anchorage; but notwithstanding all her cables, and the active vigilance of her excellent officers and crew, she was forced on shore.

CONGRESS.

IN SENATE—Monday, December 2.

This being the day prescribed by the constitution for the annual meeting of the Congress of the United States, at 12 o'clock the President pro tempore of the Senate, Mr. Gaillard, took the chair, and, the roll being called, by the Secretary of the Senate, Mr. Cutts, it appeared that a quorum was present.

The credentials of the Senators from Indiana (one of whom was present) having been read, some conversation took place respecting them, which resulted in the appointment of a committee to take the subject into consideration, it appearing that the copies of the constitution of the state had not been received in either house, though said to be transmitted as required by law, to the President and Speaker respectively. Mr. Taylor, therefore, though admitted to a seat, was not qualified.

The next business, and the only business besides the usual orders on organizing the Senate, was the proposition, by Mr. Varnum, of the following resolve:

Resolved, that it is expedient to repeal a Law passed at the last Session of Congress, entitled "An act to change the mode of compensation to the members of the Senate and House of Representatives and the delegates from territories," and that a committee be appointed to prepare and report a bill for that purpose.

The resolution lies on the table of course for one day.

After informing the other House that they were formed, &c. and appointing a committee for the same purpose, to wait on the President, the Senate adjourned.

HOUSE OF REPRESENTATIVES.

Monday, December 2, 1816.

At 12 o'clock, the Speaker (Mr. Clay) took the chair, and the roll being called over by the clerk of the House (Mr. Dougherty) it appeared that a quorum was present.

The usual orders were adopted for supplying the members with papers, &c. for communicating with the Senate, and for the appointment of a joint committee to wait on the President.

On motion of Mr. Taylor of N. Y. it was ordered that the House meet at twelve instead of eleven o'clock of each day for the present. [The object of this change is to afford more time for the committees for the first week or two of the session, whose sittings used to be interrupted, heretofore, almost as soon as commenced, by the meeting of the House.]

And the House adjourned.

SULLY FOR SALE.

THIS estate, situated in the county of Fairfax, twenty-two miles from Alexandria and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry of Plaister of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation: and those, now untilled, are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out houses are all conveniently situated: those for farming purposes are expensive, and excellent in their kind.

For a gentleman of leisure this would be a delightful residence; and a profitable estate to an active farmer. The title is indisputable, and perfectly unincumbered.

A number of well taught orderly young men, with good stocks and farming utensils of all kinds, and the crops of the present year if desired, will be at the command of the purchaser.

Application may be made to the subscriber, living on the premises, next the post office at Pleasant Valley, in Fairfax.

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several part of the West Indies, and the Southern & Middle States, particularly in N. York Philadelphia, Baltimore, Petersburg Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to cary off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions orfoulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during th warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. it is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, the basis of other lotions) and of unparralled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurf, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural, insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent inoxication or any other destructive intemperance the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstinate Coughs, Asthmas, sore throats, and approaching Consumptions, and most disorders of the breast and lungs.

Hahn's genuine Eye Water.

Lee's Ointment for the Itch.

Han's true & genuine German Corn Plaister.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
